VARON VICTOR MIRANDA

Washington, DC 20016 | vm2354a@american.edu | linkedin.com/in/varonmiranda98

Mechanical engineer turned supply chain leader who runs projects by conducting current-state assessments, analyzing business cases, financial models, implementation plans, built end to end and driven until results land. Learns fast, moves across functions and stakeholders with ease, and leads with the same energy in the boardroom as on the factory floor. Pairs that operating instinct with a STEM MBA in Business Analytics and Finance, and the creativity and client-first mindset to turn a hard problem into a custom solution.

EDUCATION

American University, Kogod School of Business, Washington, DC **May 2027**

Master of Business Administration; Business Analytics & Finance | GPA: 3.6/4.0

Activities: Graduate Assistant, Graduate Student Development (Dec 2025 to Present)

Army Institute of Technology, Pune, India **June 2019**

Bachelor of Engineering, Mechanical Engineering | GPA: 3.3/4.0

Armed Forces (AGIF) merit scholarship recipient

LEADERSHIP

- President, Kogod Graduate Student Council (2026 to 2027): elected to lead a 350+ member body in driving measurable gains in career-event participation across the cohort.
- TEDx (AIT Pune), Marketing Head: orchestrated AIT Pune's first-ever TEDx event to deliver high impact program for enthusiasts.

PROFESSIONAL EXPERIENCE

Tata Motors Passenger Vehicles Pvt Ltd, India **Feb 2024 to Jul 2025**

Senior Manager (Ahmedabad) | global automotive giant, $50B revenue, 175 countries

- Diagnosed root-cause failures across a $100M/month, 42-supplier network and built a hypothesis-driven predictive analytics framework that lifted material availability from 82% to 100%
- Led a cross-functional quality transformation across three functions, raising independent audit scores 60% (5 to 8 of 10) in six months, gaining recognition from the plant director
- Partnered with Finance to release $2.4M of dead stock (8% of a $30M base), freeing working capital reported to the CFO's office.
- Built and coached a six-person analyst team, embedding Power BI and SAP reporting that sustained a 30% throughput gain in planning and reporting efficiency.

Mahindra & Mahindra, India. **Aug 2019 to Feb 2024**

Farm-equipment and automotive manufacturer, $35B revenue; world's largest tractor maker by volume

Deputy Manager (Indore) *Aug 2023 to Feb 2024*

- Drove on-time launch of India's oldest indigenous harvester platform, scheduling 800+ parts across 120 suppliers at 100% on-time delivery and briefed the VP of Operations weekly.
- Re-sourced 8 critical and de-risked 28 single-source suppliers across 5 plants, eliminating launch-stopping gaps on 2,000 parts; mitigation plan approved by the COO and CFO.

Assistant Manager (Chandigarh & Indore) *Sep 2020 to Jul 2023*

- Youngest employee chosen to lead a supply-chain strategy rebuild at Sampo Rosenlew (Finland), clearing $10M in finished-goods inventory via order expediting and ERP upgrades.
- Built the COO-approved business case for a $6M greenfield consolidation of scattered manufacturing units, cutting cost 12% and generating $500K in recurring annual savings.

Graduate Trainee (Pune) *Aug 2019 to Jul 2020*

- Built the company's first real-time Power BI incident dashboard, lifting closure rates from 35% to 95%; scaled to VP-level reviews and earned a Mahindra Yellow Belt.

PROJECTS

- **DealBridge,** AI venture (Spring 2026): built an AI-agent platform in Python with LLM agent orchestration and SQL pipelines that automates M&A risk identification and deal summaries, cutting manual diligence-review time 50%.
- **Hektor,** AI-Native Semiconductor Supply-Chain Resilience Tool (Spring 2026): built an AI-native tool integrating live supply-chain data into Python risk models cutting tariff scenario-planning from one week to under an hour.

SKILLS

Analytics Tools: Power BI, SQL, Python, R, SAP (Materials Management), Advanced Excel | **AI:** ChatGPT, Claude, Perplexity, Microsoft Copilot | **Languages:** English, Hindi, Marathi, Bengali
